SMOKE SIGNALS II

September 2015

Volume 20.4

2015 KFA Conference

PADUCAH - The 95th Annual Conference was nothing short of a true success. Steve & Buffy Kyle along with the Paducah Fire Department and the Jackson Purchase Firefighters Association, need to be congratulated on a job well done.

For those of you that missed the conference this year here's a short recap. The week started out on Friday with a KFA Executive Board meeting. Saturday several departments took part in the Annual KFA Firefighter Olympics.

Sunday was full of activity including a Fire Commission meeting followed by the memorial service. Later that evening we all had a taste of Mardi Gras. The KFA business meeting continued on Monday with a ladies and men's luncheon followed by a Meet the Beetles concert. Later that evening everyone enjoyed a Casino Night at Harrah's Casino.

Tuesday seen the KFA business session resume and last most of the day touching on topics such as raising state aid and incentive pay, cancer presumption legislation and other informative topics. The banquet was held downtown with three inductees into the KFA Hall of Fame.

Wednesday morning officially closed out the conference with a KFA Executive Board meeting with new KFA President Jeff Pohlman at the helm. Next year's 96th Annual KFA Conference will be held in Northern Kentucky.

Pictured from left to right are Harry J. Thomas, Paul S. Billings, and Fred Ross. Welcome to the KFA Hall of Fame.

Above - KFA President Steve Kyle presents Southgate Fire Department with the State Firefighter Olympics trophy.

FIRE PREVENTION WEEK OCT. 4-10, 2015
firepreventionweek.org

Sparky® is a trademark of NFPA.

From President Jeffrey Pohlman

I am honored to be serving as your KFA President for the upcoming year. As you may or may not know, I am currently the Fire Chief of the Alexandria Fire District located in Northern Kentucky. I have been in the fire service since 1972, as a volunteer at Bromley FD (1972-1985), as a career firefighter at Newport FD (1985-2003), and now as a career fire chief for the last 12 years. If you're counting, that is 43 years.....and still going with no end in sight, as for now.

I am involved in many aspects of the Kentucky fire service to include State Fire School, Kentucky Task Force 1, NK Fire Officer Development Course, NK Technical Rescue Team, amongst other duties as fire chief in Alexandria. I could not hold the Presidency without the assistance from many good people to include my Fire District Board, the members of AFD, my 2016 conference committee, and my lovely wife Dottie who is just as involved as I am. You may see her sitting in the KFA booth at the different fire schools promoting the KFA.

Northern Kentucky will be hosting the 2016 conference and we are working very hard to bring you all a unique conference. Tentatively we will be having training sessions on Saturday including a seminar by Tim Sendlebeck, Editor of Firehouse Magazine. This will allow you to obtain training hours while you are attending the conference. Sunday will include the Memorial Service and golf outing. Monday and Tuesday will be the business sessions. During the down time there will be many family activities to include Newport on the Levee, Main Strauss, shopping venues, and Cincinnati's Smale Riverfront Park.

There will also be other available activities such as the Horseshoe Casino and the many "breweries" in the area. The Ladies will have their outing, Alexandria FD will be hosting a Sunday night venue, Southgate will be hosting their venue on Monday night, and of course, the Hall of Fame and President's Banquet on Tuesday evening.

We promise to keep you busy and are looking forward for you to attend. We want you to bring along your family and have an enjoyable time.

I would like to congratulate President Kyle on the great conference in Paducah last month. I hope the many that attended have a better idea on the issues facing the fire service and the work the Kentucky Firefighters Association is doing for you. I feel this was a great business session and educational for the first time attendees..... let's keep up the good committee work and keep our members up to date on the issues.

This is our first edition of the new Smoke Signals and I hope you enjoy the reading. Buford has done an outstanding job so far on our web page and we hope you visit. Feel free that if you have an article you would like to write and share, pictures, major fire events in your area, or something you may want to sell from your department, please send to Buford. The Smoke Signals will only be as good as our members make it!

I will work hard for you this year and will attempt to visit the many great fire association throughout the Commonwealth. The KFA Executive Board will be looking at numerous items and will be working with the Steering Committee on our future as an organization to see what is working and what is not. Mainly we need your membership and support to fight the issues that we face in Frankfort, Washington, and at home in each of our departments. So please join in and assist us with our endeavors!

Jeffrey H. Pohlman

KFA President

From 1st Vice President Billy Selvage

Greetings from North East Kentucky. First, let me start with how honored I am to be serving as 1st Vice President of the KFA for 2015-2016.

I would like to thank Steve Kyle and his wife Buffy for their hospitality during the 2015 KFA Conference in Paducah Kentucky. Everything was first class and the members that were present really enjoyed the events and sites around Paducah.

I would also like to thank my wife Amy for her dedication and hard work along with many others for setting up and working the hospitality room each night.

The hospitality room was a true partnership between the Northern Kentucky and Eastern Kentucky Firefighters Associations'. There are to many people to thank and not enough space, so again thank you all for your dedication.

As we prepare for the coming year, I look forward to fire schools and events offered around the state. Please plan on attending next years 2016 KFA Conference in Northern Kentucky. We would like to see as many KFA members present as possible.

Reach out to your surrounding departments and make sure they are members of the KFA, if not encourage them to become members. The benefits outweigh the cost of membership.

Thanks again and be safe.

Billy Selvage

KFA 1st Vice President

From 3rd Vice President Pat Thompson

This is a new and exciting time for this long time Green River Firefighters Association veteran. I was recently chosen by my peers and colleagues of my association to proudly represent them for the next four years on the Executive Board of the KFA. I am humbled by their kindness and will work hard representing every firefighter in the Commonwealth of Kentucky.

I want to first of all thank Steve Kyle and his wife Buffy for an outstanding conference. The attention to detail was outstanding and that did not go unnoticed by those in attendance. I know he could not have accomplished such a tremendous task without the obvious support of the Paducah Fire Department and the Jackson Purchase Firefighters Association. Kudos for a job well done!

There are some exciting things going on with the KFA and I feel extremely blessed to be a part of it. I plan to regularly attend meetings of the regional associations in the western part of the state. We need to somehow reestablish the Barren River Association and recruit departments back into the membership of our organization. We have strength in numbers and we need to make sure everyone has an opportunity and a voice.

Finally, good luck to President Jeff Pohlman during his year at the helm. I am quite certain Jeff and Dottie will culminate his year with an

See PAT / Page 4

PAT

From Page 3

outstanding conference in Covington next August. I hope each and every one of you is safe in your travels!

Pat Thompson

KFA 3rd Vice President

From Vice President at Large Chris Crawford

I would like to thank Past President Steve Kyle, his wife Buffy and the entire Jackson Purchase Conference Staff for their hard work to make the 2015 conference highly successful. Delegates and attendees were able to carry out the business of the KFA as well as have an enjoyable time.

I appreciate the delegates that supported and voted for me for Vice President at Large. It truly is an honor to be serving the firefighters of Kentucky again. I believe that the KFA is the greatest firefighter association in Kentucky. We are focused on the wellbeing of firefighters from the fire chief to the probationary firefighters. Regardless if you're paid with money or with the satisfaction of a job well done.

This is shaping up to be a great year for the KFA and we have many activities planned. We are now looking forward to the 2016 legislative session, where we are fighting

for raising state aid and incentive pay, cancer presumption legislation along with many other important pieces of legislation.

If at any time I can be of service to you, or your department please don't hesitate to contact me.

Chris Crawford

KFA Vice President at Large

Message from Past President Steve Kyle

Well, I am now post conference (woohoo!!!) for those that have been through this before, they definitely understand. I hope everyone enjoyed their time in Western Kentucky!!! If you weren't able to come, you missed out!!

We covered lots of important items for the fire service. There's a lot going on in the fire service and I would encourage you to be as involved as you can be. All of the fire service organizations are working together better than they ever have and with one loud voice we can accomplish so much.

As far as the conference goes, I have so many to thank for the last year that helped support me during the year as President and for the conference. The executive board, my staff at Paducah Fire Department, my wife Buffy, and JPFA staff all had many contributions to making my year successful.

Thanks to all that helped, it meant so much. For those that haven't been active in the association, please let this serve as an invite to get involved. There is no better way to learn about what the KFA does for you than to become a member of a committee or better yet express interest in becoming a member of the E-board.

I would like to wish President Pohlman a successful year. I am looking forward to visiting with my friends from Northern Kentucky (aka Southern Ohio for my buddy Jeff Pohlman) next year as I'm sure it will be a great conference.

The big focus will be the long legislative session coming up. We as an organization have established our priorities to work on for this upcoming session.

Please keep up and monitor Howdy and Steve's reports so that you stay abreast of how you will be impacted and call, call, call or come up when they ask. It is so important to our legislators to see people from their area there supporting those things we are interested in.

Good luck to Howdy and Steve in this upcoming session. I would like to close now and just want to thank everyone again for all the support that they gave me over the last year. It was an honor and privilege to serve as your state President. Thanks and I look forward to seeing you down the road.

Steve Kyle

Past KFA President

Sunday, October 18

**Keeneland recognizes the men and women
who serve our community.**

All military (active duty and veterans), law enforcement officers, firefighters, EMT's - and their families will receive free general admission and access to reserved grandstand seating.

Gates open at 11:00 a.m.

First race at 1:05 p.m.

Sustaining Members Wishing to Advertise in Smoke Signals II

Last year the KFA Executive Board made a few decisions regarding advertising in Smoke Signals.

1. We will continue to allow Sustaining Members to advertise on the two pages of "Sustaining Members" pages 14 & 15 at no additional charge. You will continue to receive 5 lines within the boxes on the two pages.

2. The newsletter is currently 16 pages in length. If there is space available we will allow 1 full page ad at the price of \$300.00 on a rotating basis so no one company can purchase pages in advance. You can however, choose on a first come first serve basis, the issue you want your ad to appear in.

4. We are also offering to add 1 double sided 11" X 17" page which gives us 4-8 ½" X 11" pages of advertising space if they can be sold 1 year or 6 editions at a time.

That means that 4 different Sustaining Member companies would need to pay \$300.00 X 6 = \$1,800.00 per company for advertisements in six consecutive editions.

If you would be interested in funding one of the pages for the year I would need to know no later than the end of September. Please feel free to contact me via the email listed below.

kfa@hurleypublishing.com

Thanks in advance

Bells Across America for Fallen Firefighters

Learn More: BellsAcrossAmerica.com

MAKE BELLS RING NATIONWIDE

AT LEAST

5

events
per state

Every year around 100 firefighters die in the line of duty protecting their neighbors. These firefighters are honored each October at the National Fallen Firefighters Memorial Weekend.

Honor and remember them in your community by creating or participating in Bells Across America for Fallen Firefighters.

National Fallen Firefighters Memorial Service
 Sunday, October 4, 2015 10 am Eastern

That's at least 250 bells ringing from coast to coast for firefighters who have made the ultimate sacrifice.

Nearly 500 organizations have participated in Bells Across America for Fallen Firefighters since the program began 5 years ago.

EMMITSBURG, MD – Honor our nation's fallen firefighters with a simple act. Ring bells in your community during the weekend of October 3-4, the National Fallen Firefighters Foundation Memorial Weekend.

Fire departments, places of worship, community organizations and individuals can hold the moment of remembrance at any time during Memorial Weekend. All we are asking is for you to pause for a moment to think of firefighters who died in the line of duty and their families – and to ring a bell.

"Bells Across America for Fallen Firefighters is a unique, grass-roots opportunity that's in its fifth year," said Chief Ronald J. Siarnicki, executive director of the NFFF. *"It allows the public to pay their respects to these brave men and women who served their communities with honor and dignity and it lets their families know their sacrifice has not been forgotten,"* ***Join us in Kentucky!!***

09/19-20	9	Maysville	888-301-2946
10/ 9-10	1	Murray	888-306-7901
11/ 7-8	5	E-Town	888-234-7201
11/ 14-15	6	Middletown	888-306-8064

Testing within the Kentucky Accredited Certification Program

All Kentucky firefighter certifications that carry IFSAC accredited credentials, require the candidate to complete both a written examination and a skill competency evaluation. The written portion of the process is usually arranged by the lead instructor of class-based certification, such as Level 1 Fire Instructor. Written exams are also available through the offices of State Fire Rescue Training, by contacting the Area Coordinator of the office nearest you. You can locate that information on our website www.kyfa.org

Additionally, for your convenience the Kentucky Fire Commission offers all written exams at its Headquarters once per month, **118 James Court, Lexington, KY**. Typically, it is the third Monday of each month, adjusted for holidays. Written exams require 70% to achieve a passing grade. Exams are mostly multiple choice questions, with a few True/False and Matching questions. Exams carry a completion time limit.

Skills testing for FF 1 and 2 is a random sampling of all possible skills in each certification level. There are multiple skill possibilities at each station, however the candidate will only be required to perform 1 skill at each station. 2015 policy changes in the Kentucky process require **ten (10) skill stations** to be completed by the candidate for FF1 with 100% competency. FF2 testing will consist of **six (6) skill stations** with a required 100% competency. Hazardous Materials Operations PPE and Product Control (NFPA 472:2013 Chapters 5, 6.2 and 6.6) are required pre-requisites for firefighter certification. **Four (4) Haz Mat skill stations** will be offered on the same test day as FF2 for the benefit of those needing the required certification.

Candidates are now required to test FF2 skills with Haz Mat. Candidates needing ONLY Haz Mat Operations must test following an organized course of the subject matter OR a scheduled skills test session that consists of ALL Haz Mat Operations (NFPA 472:2013 Chap 5) Ops Product Control (NFPA 472:2013 Chap 6.6) and Haz Mat PPE (NFPA 472:2013 Chap 6.2)

Testing requires the use of PPE, therefore candidates for testing are required to bring full PPE and SCBA. Each test day will expose the candidate to potential IDLH atmospheres with live-fire scenarios, therefore all candidates **MUST** be clean shaven to the point that facial hair does NOT come between the face piece seal and the face.

Candidates may bring their own copy of all Kentucky FF1, FF2 and Haz Mat Operations skill sheets and/or a copy of the IFSTA Essentials of Firefighting to the testing site to use as reference material. Testing DOES NOT break for lunch, light snacks will be made available.

Due to current NFPA requirements for certification, candidates shall show competency in medical training. Candidates shall bring a copy of a current CPR-Pro card and current first aid, first responder, EMT or Paramedic certification. Failure to show proof of medical training does not prohibit the candidate from testing, just certifying.

Kentucky Fallen Firefighters Memorial set for September 30th

FRANKFORT - The Kentucky Fallen Firefighters Memorial will be held September 30, 2015 at 11:00 am (EST) at Juniper Hills Park in Frankfort.

If you haven't seen the memorial it's worth the drive to Frankfort for this ceremony. The walls at the memorial contain the names of Kentucky Firefighters killed in the line of duty.

For more information please feel free to contact Ronnie Day of the State Fire Commission at 1-800-782-6823.

Hot Topic

“**Firefighting and Cancer**”

Provided by
The NVFC

Firefighting and Cancer!!

Cancer is a significant threat to emergency responders that demands our attention. Numerous studies have shown firefighters are at a greater risk for getting several types of cancer as compared to the general population.

As a first responder, it is critical that you educate yourself on your risks and what you can do to minimize those risks. Don't wait until it's too late to take steps to reduce the threat of cancer.

Early detection is key to combatting cancer, so make sure you are getting regular screenings and tell your doctor that you are a firefighter.

Take steps to reduce your risks of exposure to cancer-causing carcinogens.

1. Use full and proper PPE throughout response and overhaul.
2. Wash your PPE and hoods after response, never store dirty PPE in your car or house.
3. Wash your face and hands immediately after response and before touching food.

FIRE PREVENTION WEEK

Do you know the history??

Fire Prevention Week was established to commemorate the Great Chicago Fire, the tragic 1871 conflagration that killed more than 250 people, left 100,000 homeless, destroyed more than 17,400 structures and burned more than 2,000 acres. The fire began on October 8, but continued into and did most of its damage on October 9, 1871.

According to popular legend, the fire broke out after a cow - belonging to Mrs. Catherine O'Leary - kicked over a lamp, setting first the barn, then the whole city on fire. Chances are you've heard some version of this story yourself; people have been blaming the Great Chicago Fire on the cow and Mrs. O'Leary, for more than 130 years. But recent research by Chicago historian Robert Cromie has helped to debunk this version of events.

While the Great Chicago Fire was the best-known blaze to start during this fiery two-day stretch, it wasn't the biggest. That distinction goes to the Peshtigo Fire, the most devastating forest fire in American history. The fire, which also occurred on October 8th, 1871, and roared through Northeast Wisconsin, burning down 16 towns, killing 1,152 people, and scorching 1.2 million acres before it ended.

Historical accounts of the fire say that the blaze began when several railroad workers clearing land for tracks unintentionally started a brush fire. Before long, the fast-moving flames were whipping through the area 'like a tornado,' some survivors said. It was the small town of Peshtigo, Wisconsin that suffered the worst damage. Within an hour, the entire town had been destroyed.

When it comes to smoke alarms, it's about "location, location, location".

The key message of this year's Fire Prevention Week campaign, October 4-10, is to install smoke alarms in every bedroom, outside each separate sleeping area, and on every level of your home, including the basement. Larger homes may need more alarms.

Did you know that roughly half of home fire deaths result from fires reported between 11 p.m. and 7 a.m., when most people are asleep? Fire departments need to educate their community on how important it is to have operating smoke alarms throughout the house.

What can you do this week??.

1. Have an open house! Show off your station while educating the public about smoke detectors and other fire dangers.
2. Have a fire prevention parade.
3. Stop by schools and don't forget your high schools, you are never too old to learn about fire prevention. Also many people forget their day-cares, stop by those as well.
4. Educate, educate, educate. It's the only way!!

Editor Buford Hurley II, 1915 Long St., Flatwoods, KY 41139-2127
Phone 606-571-4415 or E-Mail: kfa@hurleypublishing.com

The deadline for article submissions into the November Issue is October 10, 2015.

DON'T WAIT. COMMUNICATE.
MAKE YOUR EMERGENCY PLAN TODAY.

SEPTEMBER IS NATIONAL PREPAREDNESS MONTH!

AMERICA'S
PrepareAthon!

Ready 

September is National Preparedness Month. This year we are asking you to take action now – make a plan with your community, your family, and for your pets. Plan how to stay safe and communicate during the disasters that can affect your community. We ask everyone to participate in America's PrepareAthon! And, the national day of action, which culminates National Preparedness Month on September 30. For more details visit: www.community.fema.gov
